Show

Accessibility

These checks highlight opportunities to [improve the accessibility of your web app](#). Automatic detection can only detect a subset of issues and does not guarantee the accessibility of your web app, so [manual testing](#) is also encouraged.

CONTRAST

<div><div></div></div>	Background and foreground colors do not have a sufficient contrast ratio.	<div><div></div></div>
------------------------	---	------------------------

These are opportunities to improve the legibility of your content.

BEST PRACTICES

<div><div></div></div>	Touch targets do not have sufficient size or spacing.	<div><div></div></div>
------------------------	---	------------------------

These items highlight common accessibility best practices.
